

GRUNDOMAT

DESCRIPTION

- Grundomat pneumatic piercing tools have been providing accurate horizontal bores beneath roads, railways, and landscaping around the world for nearly 45 years. Water, gas, sewer and electrical industries have all benefited from this work horse of trenchless technology. Minimal operating space is required and the horizontal boring tool serves as a complement, and in many situations an economical alternative to, larger, more expensive directional drilling equipment

FEATURES

- Can perform accurate horizontal bores from 50-150 feet in length
- Can be used in all displaceable soils (sand, loam, gravel etc.)
- In just one simple step, the moling tool performs a bore and pulls in pipe behind it
- Minimal disruption to traffic, buildings, and other utilities
- Avoids sizable surface damage and costly restoration required for old trenching methods
- Accelerated project completion timeline
- Easy to set up and operate
- Minimal crew size
