

FLEXTOOL 6M GENERAL PURPOSE SUBMERSIBLE PUMP

FLE-FP212G-6

- Highly efficient submersible unit
- Completely self-priming and extremely robust
- The flexible shaft drive facilitates use in many situations where close coupled pumps would not be suitable

SPECIFICATIONS

- Flexshaft length: 6m
- Shaft inner core diameter: 13mm
- Shaft chasing diameter: 32mm
- Discharger diameter: 50mm
- Max discharge head: 26m
- Max discharge: 63,000L/h
- Solids capacity: 28mm
- Operating weight: 26.5kg

APPLICATIONS

- Excavation pits
- Construction sites
- Pier holes
- Dams
- Swimming pools
- Trenches
